YOUR RECORDING CHALLENGE!

Can you make a new nonsense version of your own?

Can you get all your friends at school to chant your new version?

Can you record your friends chanting your new version and send it in to Buttons & Figs?

Here are some ideas for how to change up your version:

- Change some of the animals to those you see around where you live.
- Change the adjectives to describe the llama.
- Find a rhyme you already know and insert a portion of it in the middle.
- Change the last animal to be a mythical animal.

Since this chant is oral nonsense at its best, you can change anything or everything to make it your own!
